

Baron F-120 Mortar Mixer

Use for concrete, mortar, wet pour rubber, and resin bound aggregates

- Handles 3 ft² (200 lb) mixes
- Increases productivity with efficient material handling
- Extends service life with easy breakdown and clean-up
- Requires AC 120V, 20A service
- See [Demo Video](#)

Mixer Specifications

Drum capacity	120 liters / 4.5 CF
Drum Diameter	26 inches
Mix capacity (approx.)	90 liters / 3 CF
Paddle rpm	38 Rpm
Paddle rotation direction	Clockwise
Wheel dimensions	13 in
Overall dimensions (W x L x H)	27" / 38.25" / 43"
Machine weight	208 lbs

Motor Specifications

Single phase 110V/50Hz motor	P1 max = 2.3 P2 nominal=1.1
Power (kW)	2
Power (horsepower)	2.6
Rated voltage (V)	110
Frequency (Hz)	50
Absorbed current (A)	14.8
% ED	S6-40
Power Factor (Cos)	0.95
Number of poles	2
Protection category	IP55
